DAYBLAZER 1500

USB RECHARGEABLE FRONT LIGHT

The Dayblazer 1500 is a trail ready headlight that is just as at home helping you navigate city streets as it is railing single track deep in the woods.

Can't decide if you want to hit the local trail system for a midnight shred, or commute home on a January evening? The sleek and compact Dayblazer 1500 has you covered whatever your preference. Weighing in at a scant 140 grams, the DB 1500 features a unique TIR lens design and full 2 hour runtime at 1500 lumens, allowing it to exceed what has come to be expected for a self-contained, bar mounted light. Whether you run it on your bars, or to your helmet (with the supplied Action Camera Mount) the DB 1500 will help you see, and be seen, anywhere you want to ride. The 1500 also features a low power mode that lets you run it at 400 lumens for up to 6 hours.

DAYBLAZER 1000

USB RECHARGEABLE FRONT LIGHT

Great Value And Plenty Of Power? You Really Can Have It All.

Put quite simply, the Dayblazer 1000 is the best value light we've ever developed. Featuring up to 1000 lumens of perfectly-focused nighttime illumination, our BLITZ Daytime Running Mode to grab the attention of cars, the choice between a helmet or bar mount, ample side visibility and IP-67 submersibility, the DB1000 is going to get you noticed without breaking the bank.

DAYBLAZER 550

USB RECHARGEABLE FRONT LIGHT

Great Things Come In Small Packages.

Tipping the scales at just 60 grams, it would be tough to find a light this useful that is as svelte as the Dayblazer 550. Combining a focused beam for your commute home after dark and plenty of eye-catching pop to keep you visible during the daylight hours, this light is still small enough to forget you even have it with you. The DB 550 also features a tool free mounting bracket that will fit bars from 22.2-34mm bars with ease.

- 550 LUMEN FRONT

NEW
SIDETRACK
SIDE-ENTRY CAGE

The Sidetrack Cage proves once again that side-entry bottle cages don't need to be hard to use. Adopting many features of our high end Clutch Cage, the Sidetrack was imagined to meet the same demands for a fraction of the price. Our Clutch and Sidetrack cages are both spec'd with 30mm slotted bolt holes to allow adjustment up, or down, so that your cages can be installed on small frames or in tight spaces without interfering with rear damper/suspension. This custom fit makes it easier for you to stay hydrated out there on the ride. The Sidetrack Cage is available in either right or left entry, and in your favorite color: black.
